needed.

HEALTH SCIENCE (A.S.)

CCV's associate of science degree in Health Science provides a flexible pathway for students interested in allied health occupations as well as those preparing for advanced study in biological or health sciences. The program is comprised of core coursework in health care and human biology. Core courses are supplemented with student elective choices from a variety of health and science related options. The program easily accommodates many of CCV's certificate offerings.

All associate degrees include completion of general education requirements which, together with program requirements, constitute a minimum of 60 credits. In some cases program requirements also fulfill general education requirements. You may not use a single course to meet two general education requirements.

General Education	Program Requirements
Complete at least one course in each of the following:	Courses are listed in the order in which we recommend you take them.
First Semester Seminar	☐ AHS 1045 - Introduction to Health Care
INT 1050 - Dimensions of Self & Society	☐ CIS 1041 - Computer Applications*
☐ Introductory Written Expression – VSCS	or
ENG 1061 - English Composition	CIS 1430 - Spreadsheets*
☐ Digital and Computing Literacy – VSCS	☐ BIO 1140 - Human Biology*
CIS 1041 - Computer Applications	or
or	☐ BIO 2011 - Human Anatomy & Physiology I*
CIS 1430 - Spreadsheets	and
	BIO 2012 - Human Anatomy & Physiology II
☐ Mathematics - VSCS	☐ AHS 2015 - Principles of Public Health
	Choose 10-15** credits of Health Science Electives below:
☐ Natural Science - VSCS	☐ AHS 1015 - Introduction to Health Information Systems
BIO 1140 - Human Biology	☐ AHS 1205 - Medical Terminology
or	☐ AHS 1410 - Introduction to Phlebotomy
BIO 2011 - Human Anatomy & Physiology I	☐ AHS 1520 - Introduction to Pharmacy
	☐ AHS 1810 - Administrative Medical Assisting Internship
☐ Social Science - VSCS	☐ AHS 2145 - Community Health Work
	☐ AHS 2070 - Clinical Medical Assisting
☐ Arts & Aesthetics - VSCS	☐ AHS 2120 - Wellness for Life
	☐ AHS 2121 - Medical Coding I
☐ Humanistic Perspectives - VSCS	☐ AHS 2122 - Medical Coding II
Trumansuc Perspectives - V3C3	☐ AHS 2200 - Administrative Medical Assisting
	☐ AHS 2470 - Fundamentals of Pharmacology
☐ Communication	☐ AHS 2820 - Clinical Medical Assisting Internship
Meets graduation standard in oral communication	☐ BIO 1030 - Introduction to Nutrition
	☐ BIO 1140 - Human Biology
	☐ BIO 2011 - Human Anatomy & Physiology I
☐ Research & Writing Intensive	☐ BIO 2012 - Human Anatomy & Physiology II
	☐ BIO 2120 - Elements of Microbiology
☐ HUM 2010 - Seminar in Educational Inquiry	☐ CHE 1031 - General Chemistry I
Meets graduation standard in writing and information literacy	☐ CHE 1032 - General Chemistry II
□ Quantitativo Poasoning Assossment	☐ HUM 2020 - Bioethics*
Quantitative Reasoning Assessment Mosts graduation standard in quantitative reasoning	PHY 1041 - Physics I
Meets graduation standard in quantitative reasoning	☐ PHY 1042 - Physics II
* You may use a course to meet both a program requirement and	☐ PSY 1050 - Human Growth & Development
a general education requirement; however, you may not use a	Electives: 6 credits
single course to meet two general education requirements.	
** If DIO 1110 taken 15 Lionith Coinnes starting associated If DIO	
** If BIO 1140 taken, 15 Health Science electives needed. If BIO	

Minimum Total Credits in Degree: 60

Program Outcomes

Graduates of the Health Science program will be able to:

- analyze and discuss concepts of health, wellness, and disease utilizing knowledge of human anatomy & physiology;
- · discuss current trends and challenges related to contemporary health care;
- demonstrate an awareness of best-practices and professional conduct within healthcare settings;
- demonstrate academic skills required of all CCV graduates, including competency in writing, information literacy, oral communication, quantitative reasoning; and
- explore pathways and demonstrate preparedness for educational and career development in the student's field of study.

The Health Science program is great for you if:

- · you are interested in a healthcare career;
- · you plan to pursue continued education in a health related field;
- you enjoy being part of an integrated team of healthcare professionals;
- · you would like to attain a degree while or after completing one of CCV's health related certificate programs;
- · you have good computer, math, science, reading, writing, and communication skills; and
- you wish to work in a field which strives to improve the lives of others.

Key Information and advice for students in the Health Science program:

- The Health Science degree program will require students to provide proof of current immunizations.
- Clinical and Administrative Medical Assisting courses are possible electives in the health science degree. These courses require students to complete a criminal background check prior to registration. Students who have a felony conviction may be prevented from participating in these courses.
- Background checks are common in healthcare fields. Those with prior justice system involvement are encouraged to research employment exclusions that may arise depending on role, employer, and/or licensing criteria. Medical Assisting courses will require a background check before enrollment.
- CCV has degree pathways from this program to select programs at 4-year colleges and universities.
 Visit ccv.edu/transfer formore information.

The Health Science program prepares you for careers such as:

Health Technician

- Nurse (requires further education)
- Community Health Worker
- Medical Laboratory Technician (requires further education)

Medical Assistant
