

STEM STUDIES (A.S.)⁺

CCV's associate of science degree in STEM (Science, Technology, Engineering, and Math) Studies will prepare you with the knowledge and skills needed to succeed in key scientific and technical economic sectors in Vermont. In addition to the general education program requirements, the STEM Studies degree includes 23 credits of core program requirements within the fields of science, technology, and math. The program allows the flexibility to pursue your individual goals in fields such as physical science, life science, and pre-engineering. You may fulfill the program requirements through a combination of courses in allied health science, architecture, biology, chemistry, computer information systems, environmental science, mathematics, and physics.

All associate degrees include completion of general education requirements which, together with program requirements, constitute a minimum of 60 credits. In some cases program requirements also fulfill general education requirements. You may not use a single course to meet two general education requirements.

+ This program can be completed fully online.

General Education Requirements
